

Voicing Your Opinion

Providing Feedback on Ontario's Electricity System

There are a number of ways for consumers to voice their opinions on provincial, regional and local electricity issues.

Electricity System Planning in Ontario

There are various electricity system planning initiatives ongoing across Ontario at any given time:

- **Province-wide** customer consultations are generally managed by the provincial government.
- **Regional** customer consultations in Ontario are generally managed by the IESO.
- **Local** customer consultations related to distribution systems are managed by local distributors.

OPG Business Planning

There are various electricity system planning initiatives ongoing across Ontario at any given time. This consultation is about your needs, preferences and priorities on how OPG should invest customers' money.
